How Pricing is Calculated

There are 3 factors that impact the price of your merch order:

Merch Price + Screen Print + Shipping = Total Price

- Merch Price:** The base price of the type of merch you select. The price per item decreases as the total order quantity increases (minimum of 12 pieces).
- Screen Print:** This is the cost to print your design on the merch. Screen printing costs are based on the number of ink colors in your design and they decrease as your total order quantity increases.
- Shipping:**
- » FREE 2-week shipping is included with each order.
 - » Rush shipping is available at an additional charge.
